INDICATIONS: For Tennessee and the Ohio Valley, southwest to north-west winds, stationary temperature, rising barometer and clear weather.

A Miss L. W. R. HORTON has brought suit against J. H. Morgan, a son of Senator Morgan, of Alabama, for breach of promise.

FROM the following extract, which we find in our exchanges, it looks very much like we are getting to be a nation of beer-drinkers:

"The brewers of the United States last year manufactured and sold 9,478,361 barrels, 284,200,830 gallons, equal to a little over six gallons per capita for the population. This is only about a third of the per capita quantity drunk in Bavaria, but it represents a very pretty business, nevertheless. The export of American beer was valued at \$150,000 last year, against \$50,000 in 1874. The importations, on the contrary, have fallen off very largely, being \$167,251 gallons in 1875, against 757,709 gallons in 1873. It was discovered in the Centennial year that our brewers made as good beer as those of European countries."

ANOTHER one of the old landmarks is gone. Ex-Gov. Wm. Allen, of Ohio, died at his residence yesterday at Fruit Hill. He served in Congress with Clay, Calhoun and John Randolph, and was intimately acquainted with General Jackson. He was a remarkable man. He was born in Virginia, and left Lynchburg when but a lad, and when Ohio was a wilderness, and went to that State on foot. He was a man of strong will, great energy, large ability, and always popular with the masses. In his personal and political life he was always regarded as incorruptible. He was a self-made man in the true sense of the word, and a genuine type of the American citizen.

**The New Stock Speculations.**  
The new combination method of operating in stocks which Messrs. Lawrence & Co., Bankers, N. Y., have inaugurated, is attracting unusual attention in financial circles, by reason of its remarkable success. A customer in Providence, invested nine times, and made over \$5,000 in three months, by using from \$50 to \$500 capital. By this system, orders from thousands of customers, in various sums, are pooled into one immense capital, and operated as a mighty whole, thus giving to each shareholder all the advantages of vast capital and shrewdest skill. Profits are divided every 30 days. Any amount from \$10 to \$75,000 can be used in Messrs. Lawrence & Co.'s combination with equal proportionate success. \$15 will make \$75 profit in the month. \$200 will return \$1,600, or 8 per cent on the stock, and so on as the market varies. The new circular gives "two unerring rules for success," and shows how anyone can operate profitably. Mailed free. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y.

## TELEGRAPHIC.

More Cheerful News from Yellow Fever at Memphis.

No New Cases, the Sick Ones Progressing Finely.

The Panic Rather Subsiding—Quarantining at Other Points.

Death of ex-Governor William Allen, of Ohio.

## YELLOW FEVER.

MEMPHIS, TENN., July 11.—There have been no new cases of fever to-day and the panic of yesterday has greatly subsided, everything this morning is quiet. The sick members of Judge Ray's family are progressing favorably. No spread of the disease is anticipated. It is said that fully 5,000 people left the city yesterday. The midnight trains of the Memphis and Louisville and Memphis and Charleston railroads last night were crowded to suffocation. Both roads sent out double trains, and were yet unable to accommodate all who wished to leave, many being compelled to remain over until to-day.

The Little Rock Railroad sent out its last train at noon, the authorities of that city having notified the railroad officials that quarantine would be established on all trains leaving Memphis after that hour.

GALVESTON, TEX., July 11.—The Board of Health last evening declared quarantine against Memphis, and freight from that point will not be allowed to enter the city. Passengers will be admitted only after the expiration of twenty days from their departure. The Board also passed a resolution that all vessels from healthy ports outside the tropics shall be forbidden to touch at Key West.

LITTLE ROCK, July 11.—The yellow fever news from Memphis creates profound excitement. Little Rock is in an excellent sanitary condition. Nevertheless the Board of Health met and resolved that no trains on the Memphis and Little Rock Railroad shall be permitted to enter within the quarantine limits, five miles east of the city, after twelve o'clock to-day. Health officers were ordered to be placed on the Iron Mountain Railroad. Dr. Collum was appointed to meet incoming Memphis trains. Mayor Fletcher was notified to appoint a sufficient number of sanitary policemen, to be placed under the control of Sanitary Officer Pat. Morrison. Numerous anxious inquiries by telegraph from neighboring cities of the State are made to the Board of Health, looking to full co-operation with the Little Rock officers.

## WASHINGTON.

WASHINGTON, July 10.—The weather to-day throughout the country has been terribly hot. The following are the temperatures at 4:35 p. m., reported to the Signal Office: Atlanta, 92°; Augusta, 101°; Baltimore, 92°; Cairo, 96°; Charleston, 103°; Charlotte, 94°; Chattanooga, 93°; Cincinnati, 90°; Corsicana, Texas, 97°; Davenport, 91°; Des Moines, 94°; Dodge City, Kansas, 94°; Fort Gibson, Indian Territory, 100°; Indianapolis, 94°; Indianapolis, 91°; Jacksonville, 101°; Keokuk, 97°; La Crosse, 90°; Leavenworth, 93°; Louisville, 96°; Lynchburg, 91°; Madison, Miss., 90°; Memphis, 91°; Milwaukee, 90°; Mobile, 96°; Montgomery, 95°; Nashville, 99°; New Orleans, 90°; Norfolk, 90°; North Platte, Neb., 96°; Omaha, 97°; Sacramento, 90°; Savannah, 101°; Shreveport, 95°; St. Louis, 97°; St. Marks, Fla., 95°; Vicksburg, 96°; Washington, 91°; Wilmington, 94°; Yankton, D. T., 97°.

## CALIFORNIA.

SAN FRANCISCO, July 10.—At 10:30 to-day a terrible explosion of a powder magazine occurred near the old Standard incline works, which were blown to atoms. The Summit works a short distance off were shattered to pieces. As nearly as can be learned at present the following persons were killed: Frank Tyde, Thos. Flaherty, Wm. O'Brien and several others whose names we have not yet obtained. Among the wounded are A. D. Pierce slightly, Thomas Murphy, arm fractured, Mr. and Mrs. Chaff slightly, Sullivan, engineer at the Standard incline, had both eyes blown out and his skull fractured—he can not live. Wm. H. Edge had a leg broken, a Chinaman was buried under the

ruins, and his body has not yet been found. Thomas Gill hurt in the face, Richard Palmer hurt in arm and body, Hugh McMillan had a leg broken and injured internally, James Hickey, foreman, hurt in foot and otherwise severely injured. Mrs. McKinney and her child buried in the ruins of her house and were extracted with difficulty, John McMillan buried in his cabin and taken out slightly injured. The whole town is a hospital.

Every moment news comes of more deaths and injuries. As far as heard from there are eight persons known to be dead, and over forty wounded, with a prospect that many will die from their injuries. Women and children are crying and searching for the remains of loved ones. It is probable that many were blown into the air and their remains scattered broadcast.

## MARYLAND.

BALTIMORE, July 11.—A boiler exploded this morning in the flouring mill and box factory of J. C. Stevens & Co. The boiler house was a small one. A strong brick building at the rear of the factory and a three story brick adjoining the boiler house, used as a box factory, were completely wrecked. A portion of the wall of the main factory, a large five story brick building, was blown out from the bottom to the upper story. The large plate glass fronts and windows for a distance of two squares, were demolished. At the time of the explosion but few hands were in the factories. Augustus Setzer, one of the proprietors, and Henry Wrich, engineer, were instantly killed. Six or eight persons are said to have been injured—some seriously.

## NEW YORK.

NEW YORK, July 11.—Samuel Bailey, formerly mate of a steamboat, made an extraordinary attempt to commit suicide yesterday by beating the top of his head in with a small hammer. He can not recover.

Edward Hanlon, champion oarsman of the world, arrived here in the steamer City of Chester to-day, and was met in the lower bay and warmly welcomed by a crowd of friends. He has a reception to-night in Madison Avenue Garden.

## LOUISIANA.

NEW ORLEANS, July 11.—A special dispatch from Lake Providence, Louisiana, reports the killing of Postmaster Austin, by Squire Leese, of West Carroll, and the mortal wounding of S. L. Austin, Jr., Parish Judge. W. H. Smith, colored, who was crossing the street during the melee, was struck, it is alleged, by a stray bullet, and instantly killed.

## PENNSYLVANIA.

WILKESBARRE, July 11.—Train No. 15, of the Lehigh Valley Railroad, which left here at 1:35 o'clock this morning, met with an accident at Fairview, caused by a misplaced switch, which threw the engine down an embankment, killing Augustus Helker, engineer, and fireman Ed. Knoll. No one else hurt.

## VIRGINIA.

WARRENTON, VA., July 11.—John Williams and Winter Payne were hanged here to-day, the former for the murder of Howard Hozel, acting railroad agent and telegraph operator at Warrenton Junction in February last, and the latter for the murder of an old negro named James Adams at Salem, Fauquier county, in April last.

## MINOR DISPATCHES.

TRENTON, N. J., July 11.—In the Smith-Bennett case this morning Justice Knapp of the Supreme Court decided that the errors assigned are not supported and judgment should be affirmed as in Oyer and Terminer. The case now goes to the Court of Errors and Appeals on new assignments.

CINCINNATI, O., July 11.—Ex-Gov. Wm. Allen died suddenly at his home, near Chillicothe, Ohio, this morning.

## It is Worth a Trial.

"I was troubled for many years with Kidney Complaint, Gravel, &c.; my blood became thin; I was dull and inactive; could hardly crawl about, and was an old worn out man all over, and could get nothing to help me, until I got Hop Bitters, and now I am a boy again. My blood and kidneys are all right, and I am as active as a man of 30, although I am 72 and I have no doubt it will do as well for others of my age. It is worth the trial." (Father.)

## First Fever in Memphis Last Year.

As there has been considerable talk and speculation as to the date of the breaking out of the yellow fever in Memphis last year, we have taken some pains to search up our files and settle the question. By looking at our files we discover that the first death from the fever in Memphis occurred on the 8th of August. That was a boy who came from New Orleans, and was admitted to the Memphis quarantine hospital three days before. It was reported in the telegraphic dispatches as the only case of fever that had reached Memphis. We heard no more from Memphis then till August 13th, on which date the Irish woman, keeper of a restaurant, frequented by river hands, was reported down with yellow fever. From this it spread rapidly, and increased from day to day. The fever had already, at this date, been raging to an alarming extent in New Orleans for three or four weeks. The first report of it there, that we are able to find, was on the 26th of July, when 23 cases and 13 deaths were reported. It was just the day before the second case at Memphis that the one hundred cases suddenly broke out at the fated town of Grenada, Miss.

## Borax Soap the Best.

Youngful Pedestrians.  
Messrs. G. Zimmerman, E. L. Miller and Perry Saunders, three enterprising young men, students at the University, left this place Thursday on a great pedestrian tour. Their first destination was Mount Airy Springs, from whence, after resting a little, they will go to Athens.

## Frank Leslie's SUNDAY MAGAZINE FOR AUGUST.

Presents manifold attractions, and the powerful claims of the periodical to extensive patronage can not possibly be gainsaid. It is probably the most pleasing magazine published, containing a greater variety of choice reading-matter and more illustrations than any of its contemporaries. Its literature is pure and healthful, inculcating exalted sentiment; it is always vivacious, and edifies and instructs while it entertains. The opening article is a deeply interesting one, by Prof. W. Wells, on "Emigration to the Holy Land," and Mr. Guernsey furnishes a second one on the "Persecutions, treatment of the 'Crusad' against the Aborigines and Waldenses." There is a charming memorial sketch, with portrait, of the late Miss King of Georgia. A story entitled "Lady Vassar's Ward," by Edward Garrett, is deeply interesting. There are several short stories, some of them adapted to children, and all have interesting incidents and instructive morals, and are admirably written. The poems are more than ordinarily meritorious, and are by Mrs. Kidder, Mrs. E. L. Miller, C. Hastings, and other talented writers. There is the popular Exegesis by the Editor, and in "At Home and Abroad" he gives a full summary of what is passing in the religious world. In the Editorial Department he treats of timely topics—"Put time on Airs," "Clergy men's Vacations," "Vox Populi," etc. The 125 quarto pages are in fact, crowded with good things, and the embellishments number nearly 100. The price is only \$3 per annum, postpaid, and subscriptions are received for six months, \$1.50; four months, \$1. The price of a single copy is 25 cents. Address Frank Leslie's Publishing House, 53, 55 and 57 Park Place, New York.

## MARKETS BY TELEGRAPH.

New York Market.  
NEW YORK, July 10.  
Money easy, 2 3/4, closing 2. Exchange dull and barely steady, \$4 53 1/2. Government, weak; new 5's, 3 3/4; four per cents, 5 1/2; four and a half per cents, 1 1/2. Sales, dull.

## Ayer's Sore Cure,

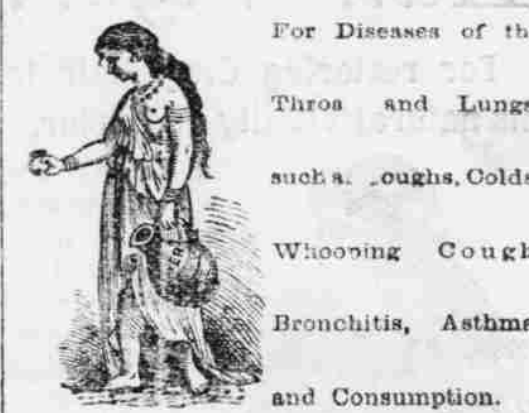

For Bores, Sores, Intermittent Fever, Chills, Fever, Rheumatism, Dumb Ague, Erysipelas, Ulcers, Scalds, and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine is fully demonstrated for the cure of Intermittents, that it contains no quinine or mineral, and those who take it are free from danger of admission of any injurious effects, and are as healthy as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so many have been its success that it has gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and drives the system from its influence, so that fever and ague, shivers or chills, once broken up by it, do not return until the cause is again contracted. The great variety of disorders which arise from the operation of the poison, such as Neuralgia, Tremor, St. Vitus's Dance, Headache, Blindness, Deafness, Catarrh, Asthma, Palpitation, Epilepsy, Hysteria, Pains in the Limbs, Paralysis, and derangement of the Somniferous system, which become intermittent, and are cured by this remedy. Many residents are cured of these diseases, and few will ever again be troubled by them. It is a powerful tonic, and gives strength to the system. It is a powerful tonic, and gives strength to the system. It is a powerful tonic, and gives strength to the system.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

## Ayer's Cherry Pectoral

The reputation it has attained, in consequence of the marvellous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every section of country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority; and when its virtues are known, no one hesitates as to what medicine to employ to relieve the distress and suffering peculiar to pulmonary affections. Cherry Pectoral always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

A safe and sound remedy, and the distressing diseases which beset the Throat and Chest of Children, are invariable, for, by its timely use, multitudes are rescued and restored to health. This medicine gives friends at every trial, as the cure is its constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.
